Medical and Rx with Anthem

Ferrotec offers two medical plan options through Anthem, with the flexibility to choose the coverage that works best for you. Both plans include comprehensive medical with preventive care covered at 100%, as well as prescription drug coverage, and access to a broad network of national providers.

PPO Copay Plan with HRA

A PPO plan is a predictable plan with higher premiums but fixed copays for office visits and prescriptions. You may receive care from any provider you choose but will have the best coverage if you stay in-network. This plan is paired with a Health Reimbursement Account (HRA) with automatic contributions from Ferrotec to help pay for qualified health care expenses.

PPO HDHP Plan with HSA

The PPO HDHP plan is high-deductible plan with the flexibility of allowing both in- and out-of-network provider access and low monthly premiums. The PPO HDHP plan is paired with a tax-advantaged Health Savings Account (HSA) with contributions made by you and Ferrotec to help pay for eligible health care expenses now and in the future.

Which Medical Plan is Right for You?

	PPO Copay Plan with HRA	PPO HDHP Plan with HSA
Payroll Contributions	Higher	Lower
Deductible	Lower	Higher
Out-of-Pocket Costs	Predictable copays for most care	Higher until deductible is met, then lower
Savings Account	HRA Ferrotec contributes 50% per claim up to \$2,000 for individual or \$4,000 for family coverage	HSA Ferrotec contributes \$500 for individual or \$1,000 for family coverage + employee contributions up to the annual IRS limit
Flexible Spending Accounts	Health Care FSA	Limited Purpose FSA
May be best for...	You prefer predictable copays and lower out-of-pocket costs, even if it means higher payroll contributions.	You want lower payroll contributions, plan to save for care with an HSA, and are comfortable paying more out of pocket for care.

Health Savings Account (HSA)

Health Equity

Your Health Savings Account (HSA) through Health Equity works hand-in-hand with the Anthem PPO HDHP with HSA plan to help you save pre-tax money for health care expenses — or even retirement. It's your money, your choice, your rhythm.

Contributions

The Company helps you get started by contributing to your HSA when you elect the HDHP plan and meet IRS eligibility requirements. You can also add your own tax-free contributions to cover current health costs or build savings for the future. Contributions from Ferrotec are split into two payments over the year.

Coverage	Company Contribution	You May Contribute	2026 IRS Maximum
Employee	\$500	\$3,900	\$4,400
Dependents	\$1,000	\$7,750	\$8,750

55 or older? You can add an extra \$1,000 per year in catch-up contributions.

Eligibility

To make or receive contributions, you must:

- Be enrolled in a qualified HDHP.
- Not have other non-HDHP health coverage (including a spouse's full FSA).
- Not be anyone else's tax dependent.
- Not be enrolled in Medicare A or B, Tricare, or VA benefits.

Using Your HSA Funds

You can use your HSA to pay for qualified health expenses — including medical, dental, vision, and prescriptions — for you and your eligible dependents. Or, let your balance grow and save for future medical expenses into retirement. The money is always yours, even if you change jobs or health plans.

Grow Your Money + Save on Taxes

HSA contributions go in tax-free, grow tax-free, and can be spent tax-free for qualified health expenses. Once your balance reaches a certain level, you may also invest part of your HSA to grow your savings over time.

In Retirement

At age 65, you can withdraw HSA funds for any purpose without tax penalties. Funds used for qualified health expenses remain tax-free — covering things like Medicare premiums, long-term care premiums, and durable medical equipment. Non-health withdrawals are taxed like an IRA.

Health Reimbursement Arrangement (HRA)

Health Equity

Your Health Reimbursement Arrangement (HRA) through Health Equity works with the Anthem PPO Copay Plan with HRA to reimburse you for eligible health care expenses. Ferrotec automatically sets aside money for you and your covered dependents, making it easy to manage costs and stay in balance.

Contributions

Coverage	Company Contribution
Yourself only	\$2,000
Any dependents	\$4,000

These funds can be used for qualifying medical expenses for you and your covered dependents. The HRA reimburses 50% per claim up to the maximum benefit amount per plan year: \$2,000 per member or \$4,000 per family.

Note: Unused funds do not roll over, are non-transferable, and are forfeited if your employment ends.

HRA Claim Process

Learn how to apply your health care dollars once you receive them from Health Equity.

1 Participant	You visit your doctor for care.
2 Provider	Your doctor submits the claim to Anthem.
3 Plan	After processing, Anthem sends the claims to Health Equity weekly.
4 Health Equity	Health Equity pays 50% of the eligible claim amount directly to your doctor.
5 Participant	Your provider will bill you the remaining 50%.

Health Care FSA	Eligible medical, prescription, dental, and vision expenses	\$3,400	\$680	All employees not enrolled in an HDHP eligible plan
Limited Purpose FSA	Eligible dental and vision expenses only	\$3,400	\$680	Employees enrolled in an HDHP plan with HSA
Dependent Care FSA	Child or disabled adult care while you work or attend school	\$7,500 per household (\$3,750 if married filing separately)	N/A	All employees

401(k) Retirement Plan

Sentinel

Finding your Work/Life Rhythm means planning for the future while living for today. Your 401(k) Plan through Sentinel makes it easy to save in a way that fits your goals. By contributing now, you're building financial confidence and staying in rhythm with the future you envision.

Your Contributions

Take control of your retirement by choosing how much to save.

- Contribute up to 100% of your pay as a traditional pre-tax, Roth after-tax, or blend of both — up to the annual IRS limit.
- If you are age 50 or older, you may contribute an additional \$7,500 as a catch-up contribution.
- Roll over funds from another qualified retirement plan to watch your investments grow faster.
- You are always 100% vested in your contributions — including rollover contributions and associated investment gains.

Safe Harbor Matching Contribution

Ferrotec may make a safe harbor matching contribution to your eligible 401(k). You'll become eligible once you meet the plan's initial entry requirements. Each year, you'll receive a required notice outlining how the safe harbor contribution works. For full details, please refer to your Summary Plan Description (SPD).

Profit Sharing Contribution

You share in Ferrotec's success. Ferrotec may provide an additional discretionary contribution to eligible employees. The amount, if any, is determined by Ferrotec.

- The amount is determined on an annual basis and is subject to a 3-year vesting schedule.
- Eligibility is evaluated monthly. You must meet the plan's initial entry requirements.
- In future years, you must work at least 501 hours during the year to receive the contribution.
- If you leave Ferrotec, you must have worked at least 501 hours in that year to be eligible.

These contributions are another way Ferrotec helps support your financial future. Be sure to review your plan SPD for additional information on eligibility and the Company's match.
